Forensic Science Workshop for Teachers

July 10-13th, 2007

8:30 AM – 4 PM

Applied Biosystems, Foster City, CA

with

Dr. Frank Stephenson and Mr. Mark Okuda

CRIME SCENE DO NOT CROSS

This workshop will introduce participants to many aspects of forensic science including:

- DNA analysis using PCR
- Blood splatter analysis
- Fingerprinting
- Population statistics in forensics
- Ballistics/ firearms analysis
- Mock trials
- and much more!

Please note that BABEC currently provides support of D1S80 VNTR PCR lab materials through local partnerships. Credits are available for purchase from SJSU and CSUEB.

For more information, please visit the BABEC website or contact Nicole Markelz <nicole_markelz@babec.org>.

Register online at www.babec.org.

Please register ONLY if you can attend the complete workshop.

Made possible with support from:
Applied Biosystems, Inc., SCCBEP and BABEC
